"What apps do you recommend?"
– Parent

"Here is a flipbook with QR Codes leading to FREE apps for home!"
– You! ☺

©SarahBarnett

Use these pages to create flipbooks to hand out to parents! You can hand these out at curriculum night or any other time during the year.

Parents will scan the qr codes to be taken to the app store where they can download the suggested apps.

It makes it much easier than emailing out lists of apps you suggest every time a parent asks!

©SarahBarnett

Includes step-by-step picture directions to make the flipbook.
